eVA-Catalog Manager	Role restricted to eVA Team Catalog Management employees
eVA-ChangeManager	Role provides ability to change ANY requisition or order within the realm of their access (i.e. has AXXX-AgencyQueryAll). Users assigned this role should NOT have eVA Edit Approvable role. Assign with caution.
eVA-Create BuysenseOrg	Role provides ability to create a new or change an existing Buysense Org for an entity.
eVA-CreateDPSExemptionForm	Role provides ability to create an Annex D-DPS Exemption eform.
eVA-CreateRequisition	Role provides ability to create eMall Requisitions. Without this role, the CREATE requisition link does not display.
eVA-CreateUserProfileForm	Role provides ability to generate a Create New User eForm.
eVA-DPSExemptionApprover	Role provides ability to approve DPS Exemption eForms; restricted to DPS Mgmt.
eVA-DPSSoleSourceApprover	Role provides ability to approve Sole Source eform.; restricted to DPS Mgmt.
eVA-Edit Approvable	Role provides ability to edit any transaction that can be viewed.
eVA-Force Order	Role provides ability to force an order to 'ordered' status when it has failed; restricted to eVA Team personnel.
eVA_NoReApprovalwithApprovalEdit	Role provides ability for an approver to edit a requisition without the requisition being recirculated to previous approvers for re-approval. EXCEPTION: Changes made to Increase the Amount/Qty or change the 'On behalf of' will fire the original approvers.
eVA-OnBehalfOf	Role provides ability to create an email requisition on behalf of any user authorized to create eMall requisitions within the eVA system. Restricted for E194 users.
eVA-Order-Large-Value-Review	Role restricted to eVA Team Mgmt for purpose of review/approval of orders exceeding \$1M.

eVA-No Supervisor	This role gives allows for a user to make a change to their user profile without having a supervisor inserted into the approval flow (only one per agency).
eVA-Query All	Role provides ability to run queries against all COVA for emall transactions and should be restricted to eVA Team personnel. Users with this role should not have an entity Query All role also.
eVA-Receive	This role is a 'behind the scenes' role assigned to ALL users. Without this role, users do not have ability to see the Receive link on the eMall screen. (Those without receive permissions will see the RECEIVE link, but will not be able to receive; based on BSO setup.) For technical reasons, this role must be never be removed from users.
eVA-Receive All	This role should be ignored; never assigned.
eVA-Rpt-Hier	Role provides ability to run basic eMall Operational reports.
<i>NOTE: (All eVA RPT roles provide some form of access to operational reports (i.e. Orders/Summaries/Requisition Details, etc)</i>	
eVA-Search Manager	Role provides ability to make Global configuration changes/setup to eMall Dashboard. Restricted to eVA Team personnel.
Agency Common Roles	Definitions
AXXX- OnBehalfOf	Role allows users to create requisitions on behalf of users in the selected agency role name. (Example: User in A194 can buy on behalf of user in A601 if given the A601-OnBehalfOf role.)
AXXX -SEV Approver	Role assigned to an approver for the State Entered Vendor signer rule.
AXXX -SRV Approver	Role assigned to an approver for a signer rule for self-registered vendors.
AXXX -URV Approver	Role assigned to an approver for the Unregistered Vendor signer rule.
AXXX-Agency Security	Role assigned to the designated agency security officer(s) for purposes of approving certain user profile changes, such as addition of new roles, etc.
AXXX-AgencyQueryAll	Role provides ability to search for and view all documents (Requisitions, Orders, etc) created by users in that agency.

Axxx-eVAUserProfileApprover	Role provides ability to approve the Create User Profile eform.
