Subject: eVA

Mr. Bell;

My name is Jason Jacques, I work with the Government of Canada's Treasury Board Secretariat.

The Government of Canada is currently evaluating options to implement an e-Procurement solution. Our counterparts in the United Kingdom indicated that the Commonwealth of Virginia is a pioneer in this field, and suggested that studying your experience with eVA would provide significant insight.

We were hoping that a member of your team might be available for a brief conference call to discuss your experience with e-Procurement, focusing specifically on:

- * Total project costs
- * Experience with contractors
- * Funding Model (i.e. fixed versus pay-as-you-go)
- * Variability/quality of cost savings estimates
- * Implementation issues/challenges

Thanks for your due consideration.

Jason.
