

COMMONWEALTH OF VIRGINIA
Department of General Services
Division of Purchases and Supply

Compact Sport Utility Vehicle (SUV)

These specifications are for 2012, or most current model year, compact sport utility vehicles. The contract resulting from this bid will be made available for use by state Agencies, institutions of higher education, public bodies of the Commonwealth of Virginia, and other entities authorized to use the contract by the Code of Virginia, or any other entities as mutually agreed to by all parties.

The product bid shall be the new and unused current production model of the vehicle required. No prototype, demonstrator, rebuilt, or previously used product will be accepted, and offering of such a product will be cause for bid rejection.

All options or accessories installed upon the vehicle shall be engineered, designed, or certified by the manufacturer of the vehicle to be compatible with all components, give dependable service, and not degrade the handling, performance, safety or appearance of the vehicle. If the term "heavy duty" is used in these specifications, it shall mean that the item to which the term is applied shall exceed the usual quality, quantity, or capacity supplied with standard production vehicles.

The requirements below are for the Solicitation Base Vehicle which may differ from the Manufacturer's Base Vehicle.

All components, unless otherwise required by these specifications, shall be the standard or optional equipment specifically advertised and installed by the manufacturer for the vehicle which the bidder proposes to furnish. The only source of information in determining whether or not the equipment is specifically advertised for the vehicle being offered shall be the manufacturer's published vehicle literature.

Any equipment called for in these specifications which is not listed by the manufacturer as standard or optional for the vehicle model being offered is subject to buyer approval.

NOTE: Some equipment required by this specification may not be factory installed. Certain items may not be available from the Manufacturer. It is your responsibility to review the specifications in detail to insure that you have outside sources of supply where necessary and the capability to fulfill the dealer installation for these items.

Vehicles and equipment must conform to the BASE VEHICLE requirements set forth below. Minimum requirements are stated for certain equipment and may be exceeded, subject to buyer approval.

Line #1: New 2012, or most current model year; Compact Sport Utility Vehicle with all standard features to include, but not limited to the following minimum specifications and components to be included as this BASE VEHICLE;
